THE MEANING OF SUCCESS:
Insights from Women at Cambridge

Makes a compelling case for a more inclusive definition of success. First-person stories and portrait photography bring alive the achievements and challenges women experience in their working lives, and the effect gender has had on their careers.

‘The Meaning of Success’ stimulates a debate about what it would take to bring about a more inclusive working environment.

“As I read the stories these women reveal, I was moved and I was excited …”

“By opening up dialogues about what matters to each of us, about our working culture and about what is going right and what it going wrong, I hope that everyone, male and female, will feel better able to achieve their potential and to do so without compromising their own integrity.”

Professor Dame Athene Donald,
Gender Equality Champion, University of Cambridge

“My hope is that Cambridge will become increasingly inclusive, so that difference is embraced and celebrated and the effort that is expended on fitting in or conforming can be used to more exciting and productive ends.”

Professor Jeremy Sanders, Pro-Vice-Chancellor for Institutional Affairs, University of Cambridge

“The women of Cambridge have a multi-dimensional rather than one-dimensional sense of what it is to be successful.”

Jo Bostock, Pause Consultancy
